- **CCC (Course On Computer Concepts) Certificate**, An Autonomous Scientific Society Of Department Of Electronics And Information Technology, Ministry Of Communication and Information Technology, Government Of India.

Projects

Book Hub (Goodreads Clone) (avinashchauhan18.ccbp.tech)

Implemented responsive Goodreads Clone where users can log in and see a list of books, bookshelves like all shelves (books sorted by rating), completed reading shelf, currently reading shelf, want to read shelf, and user can also search books with author's name and book's name.

- **Login Credentials**: Username: rahul, Password: rahul@2021
- Implemented different routes for features like login, home, bookshelves by using React Router components Route, Switch, Link.
- Implemented stars (rating), dropdown (select) using React Third Party libraries called React Rating Stars, React Select.
- Used Figma mockups to implement UI-rich and pixel-perfect React components.
- Used fetch to call REST APIs for a list of books, bookshelves details and books search APIs.
- Implemented username and password authentication and persisted login state using client storage.
- Implemented a protected route to ensure only authenticated users can access the pages like home, bookshelves, etc.

Technologies used: HTML, CSS, JavaScript, React JS, Bootstrap, React Rating Stars, React Select, Figma, client storage.

Food Munch (avinashchauhan.ccbp.tech)

Developed a responsive website for Food Store where users can see a list of food items, detailed information about a food item, offers

- Designed page using following HTML structure elements like li, header, article, footer elements and different bootstrap components to show different sections in the website and different bootstrap classes for responsiveness through mobile-first approach.
- Implemented product youtube videos by using bootstrap embed and model components

Technologies used: HTML, CSS, Bootstrap

E-Commerce Website (shoplane-by-lassie.netlify.app/)

• Mobile Responsive Design – Built with HTML & CSS for seamless experience across devices. • Product Listings – Dynamic product display fetched from a third-party API. • Search & Filters – Users can search for products and apply filters. • Cart Management – Add, remove, and update products in the cart. • Secure Checkout Flow – Basic checkout functionality for a smooth user experience. • Interactive UI – Enhanced with JavaScript (DOM Manipulation & Event Handling). Technologies used : HTML,CSS,Javascript,Reactjs,Nodejs
